

CAD-7 REBATE / SURCHARGE BULLETIN

**Did you get a CAD-7 surcharge or rebate this year?
Is it what you expected? Do you know if you maximized
your CAD-7 rebate or surcharge? Would you like to know
the dollars and "sense" behind the numbers?**

It's that time of year again and the WSIB has mailed out the **2013 CAD-7 statements**.

The majority of construction employers we meet look at their **CAD-7** statement as a cost of doing business and do not realize the "profit center" potential.

SE-GA Workplace Consulting P.C. can help you understand your **CAD-7** and the associated costs by providing answers to these common questions:

- **What will our next year's CAD-7 position be?**
- **How can I have no accidents and still have a surcharge?**
- **Why do we get charged two years in a row if our worker is back to work?**
- **What is the cost to my company of a lost time accident?**
- **What can I do to improve my past/current/future CAD-7 results?**
- **What is the 8 day rule and how does it apply?**
- **What should I do if the doctor says my injured worker must stay home and rest?**
- **Can I get any of this money back?**

SE-GA can quickly identify areas of improvement for your program. We provide cost avoidance and cost recovery solutions for all types of construction employers across Ontario. Accordingly, we are proud of our accomplishments. For examples of decisions where Ontario Construction employers have enjoyed significant success of our solutions kindly **CLICK HERE**. Also feel free to view other WSIB success stories for Ontario employers feel free to **CLICK HERE**.

Our first commitment to Ontario Construction employers is to assist them in understanding the nuances of their **CAD-7** costs and calculations and let them make sound business decisions. As such, we are willing to meet with you and provide a **NO CHARGE** evaluation of your **CAD-7 performance** regardless if you're in rebate or surcharge position. If you are interested in an evaluation of your program, please **CLICK HERE**. If you wish to brush up on your **CAD-7** skills and attend one of our upcoming Fall 2013 "Understanding **CAD-7**" seminars please **CLICK HERE**.

We thank you for your time and wish you an accident free year.
